

WELCOME TO CLIENTTRACK AND THE WORLD OF HMIS

Introductory Training, Client Intake and Basic Client Track Features.

Important terms

- ◎ **Organization-** Agency that receives a grant has a **program** and provides **services**.
- ◎ **Program-** set up under a **grant** and provides **services**, usually same name as **grant**. You must enroll clients in programs to generate an APR for a **grant**.
- ◎ **Grant-** Money given by a funding entity to a Grantee.
- ◎ **Service-** something you provide to a client which is tied to a **program**
- ◎ **Workflow-** a set of steps you need to follow to intake or exit a client from a **program**

Logging In

- To log in to the Live database go to www.clienttrack.net/modesto
- To log into the Training database go to www.clienttrack.net/modestotest
- After you log in make sure that at the top of the webpage it says Modesto if you are in the live database or it says Modesto Testing if you are in the training database

Housing Authority
of the County of Stanislaus

Welcome to ClientTrack

The HMIS System for Stanislaus Housing and Support Services Collaborative (SHSSC)

Administered by the Housing Authority
County of Stanislaus

This is the user dashboard, and will be the first thing you see when logging into ClientTrack.

Logging in

- ⦿ To avoid Errors make sure to close the browser completely if you are going to switch databases
- ⦿ Don't bounce around from the training database to the live database as it may cause errors and you might end up entering your clients into the wrong database.
- ⦿ If you end up going into the wrong database by mistake you will have to reenter all your clients.

Tabs

- ⦿ At the top of each page there are 4 tabs
 - 1- Home,
 - 2- Clients
 - 3- Housing
 - 4- Support
- ⦿ Each Tab will change the menu groups located on the bottom left side of the page
- ⦿ Each menu group will change menu options on the left side of the page

ClientTrack Layout

The screenshot displays the ClientTrack 2011 web application interface. The browser title bar reads "Modesto Testing - ClientTrack 2011 - Windows Internet Explorer". The page header includes the "CT ENTERPRISE" logo, a "Welcome super user" message, and navigation links for "Settings", "Help", and "Sign Out". A secondary header contains a navigation menu with "Home", "Clients", "Housing", and "Support" tabs, which are highlighted with a yellow box. A callout labeled "Tabs" points to this menu. On the left side, a "My ClientTrack" sidebar is highlighted with a red box and contains a "Search Menu" and a list of options: "User Dashboard", "Recent", "Bulletin Board", "Tasks", "Calendar", "Case Load", "My User Configuration", "Quick Services - Multiple Clients", "My Workflows", and "Paused Operations". A callout labeled "Menu Options" points to this sidebar. At the bottom left, a "Menu Groups" section is highlighted with a blue box and contains "My ClientTrack", "Reports", and "Additional Tools". A callout labeled "Menu Groups" points to this section. The main content area features a "Welcome super user" message, user information ("Organization: HMIS HACS", "Workgroup: Working2011"), and a "Housing" section with the text "Welcome to ClientTrack" and "HMIS System for Stanislaus Housing Collaborative (SHSSC) Housing Authority". Contact information for the Stanislaus County Housing Authority is provided at the bottom, including phone numbers and email addresses: "Contact (209) 557-2037, E-mail: whanneman@stancoha.org", "HMIS Tech (209) 557-2086, E-mail: HMISTech@gmail.com", and "ESG (209) 525-6330, E-mail: farnona@mail.co.stanislaus.ca.us".

Tab 1 Home

- ◎ The home tab allows you to
 - Set up your calendar,
 - Manage your user information
 - Look at your recent clients
 - Allow you to run reports and the HUD APR.
 - Continue Paused applications

Tab 2, Clients

- All client Intake, Enrollment and Exit is handled through this tab its menu groups and options.
- Everything from enrollment to assessments to editing client information is found in the ClientsTab

Client Dashboard

- The Client Dashboard displays the most important information about the current client
- This means current and previous enrollments and services.
- Basic defining information such as Name, Age and DOB.

John's Enrollments

Case Name	Enrollment	Members	Enroll Date	Exit Date
Lennon, John	TESTER GRANT - TESTSomething	1	07/07/2011	
Lennon, John	HALO1 - SCAP	1	06/21/2011	
Lennon, John	HPRP-Modesto - HPRP	1	06/14/2011	
Lennon, John	HPRP-02-Children's Crisis Cent - HPRP	2	06/14/2011	

John's Services

Date	Units	\$ Total	Organization
06/14/2011	1.00	\$0.00	HMIS HACS
07/13/2011	1.00	\$0.00	HMIS HACS
07/07/2011	1.00	\$20.00	HMIS HACS
06/14/2011	1.00	\$0.00	HMIS HACS

Tab 3 Housing

- ⦿ This Tab is currently not being used.
- ⦿ This is a work in progress in order to allow a bed management type model for emergency shelters
- ⦿ This will allow them to easily track entry and exits of ES clients.

Tab 3 Support

- The Support tab allows you to submit questions or issues to the HMIS Technician. If the HMIS technician cannot answer the question or provide a solution he can then submit it to DSI the company that makes client track. This means that no matter what your question is you can get an answer to it

Workflows

- ClientTrack has a workflow system which guides you through the intake and Exit processes.
- The workflow is to guarantee that all information that needs to be entered gets entered.
- There is a workflow for each program entry and exit.

Program Workflows

- ⦿ You select your program and your Intake or Exit... Simple
- ⦿ If data collection requirements change in time this keeps things simple because you still only click on the workflow for your program.
- ⦿ At this point many will look the same especially ESG and CDBG and in fact will have the same workflow but it simplifies things for the future.

Enrollments and Services

- Enrollments are so we can tell what program and what grant a client is receiving services for.
- If you do not assign a service to a client then they will not show up on the APR.
- You also need to exit client from enrollment in order to keep a current list of active clients.
- Services must last at least 1 day for it to show up on the APR.

Assessments

- ⦿ Assessments are a set of questions that represent a client's status at a point in time.
- ⦿ When you intake a client you have to do a master assessment, and other assessments depending on the program.
- ⦿ If you use a workflow you save the trouble of figuring out which assessments to use.

Exits

- ⦿ An Exit marks that a client has left the program, if you never exit a client it is like he never left and will cause errors when trying to generate an APR
- ⦿ It is important that you exit a client promptly so that you can get consistently accurate reports.

Adding a client

- To add a client you must first be in the Clients Tab.
- On the left hand side there is an option called “Add a Client” clicking on this will take you to the client search (explained later)
- If a client is not found you can start your client intake gathering only the basic client information
- You can then click on any workflow to enroll the client in a program.

Client Search

- ⦿ The client search comes up when you are trying to add a client or when you are trying to find a client.
- ⦿ In order to get the widest range of results when searching you need to put in the least amount of information required.
- ⦿ Even though it asks for a lot of information only enter First and last name.

Finding a Client

- ⦿ If you already have a client in the system there is absolutely no reason why you should enter ALL the data again.
- ⦿ With ClientTrack, once you enter a client his information stays in the system forever so even if he comes back two years from now his information should still be in the system which would make it easier for you to do the intake.

Find Client

Use the section criteria below to find your client. To narrow the search, fill in more than one criteria. **Social Security Number** and **Birth Date** are the best fields to narrow your search.

First Name:

Last Name:

Middle Name:

Full Name (Last, First):

Social Security Number:

Birth Date:

Scan Client:

ONLY Search by First and Last name to produce largest number of results

Security and Sharing

- For HPRP sharing please refer to the HPRP Sharing document available from the HMIS Technician
- After you input the client and after each assessment you will be asked what restrictions you wish to apply.
- ALWAYS Restrict to Organization unless HPRP.
- If you do not restrict to Organization Everyone will be able to look at the information you entered.

Information Release and Security

To share the client's record with other organizations thru an existing Information Release agreement, select an Information Release # using the lookup. Enter the Begin Date and optional End Date for sharing this client's record. Select Page Help (?) for more information.

Assign the client-level Security Restriction.

- **Restrict to Organization** will override any information releases and hides the entire client record from all other organizations.
- **Share Intake to MOU/Info Release** allows only the organizations granted access to the client record thru Information Release.
- **Share Intake Globally** allows all organizations to access the client intake and create transactions.

Information Release #:

Begin Date:

End Date:

Security Restriction: *
